

Identity Option 3 – Periodic Upload of IMEI Number Assignments

The third alternative to comply with AT&T’s Identification requirements is send to AT&T a list of all your device IMEI assignments for ALL manufactured devices. The device manufacturer will send to AT&T a data file which maps IMEIs to the following host device identifiers:

Host Device Manufacturer – The manufacturer name as submitted into the AT&T IOTS Onboarding Tool and reported in the AT&T Network Ready Lab Notice of Network Compatibility (TA Letter) for the Host Device.

Host Device Model – The model identifier as submitted into the AT&T IOTS Onboarding Tool and reported in the AT&T Network Ready Lab Notice of Network Compatibility (TA Letter) for the Host Device.

Host Device Software Version – The version value as submitted into the AT&T IOTS Onboarding Tool and reported in the AT&T Network Ready Lab Notice of Network Compatibility (TA Letter) for the Host Device.

Host Device ID – The unique ID assigned by AT&T as the “Device ID” in the AT&T IOTS Onboarding Tool and reported in the AT&T Network Ready Lab Notice of Network Compatibility (TA Letter) for the Host Device.

The data file should be a .csv formatted text file with one device per line as follows:

Host Device Manufacturer, Host Device Model, Host Device Software Version, Host Device ID, IMEI

Sample data for the “csv” file is shown in the table below:

Host Device Manufacturer	Host Device Model	Host Device Software Version	Host Device ID	IMEI
ACME Inc	Arrow21	4.0	99bAEfgXXf	357099060399038
ACME Inc	Arrow21	4.0	99bAEfgXXf	357099060343341
ACME Inc	Arrow21	4.0	99bAEfgXXf	357099060327658
ACME Inc	Arrow21	4.0	99bAEfgXXf	357099060347722
ACME Inc	Arrow21	4.0	99bAEfgXXf	357099060343085
ACME Inc	Arrow21	4.0	99bAEfgXXf	357099060330397

Please note: By choosing this option, you must also provide legacy data for all devices manufactured in 2015 and 2016. The data is needed for all carriers, not just AT&T. The data should be provided to AT&T on a recurring basis, every three months, beginning at the time AT&T TA is granted. Email address is iotteam@att.com.
