

# Get Certified With AT&T's "Get Network Ready" Checklist

- Order Your FREE AT&T TRENDI SIMS (310 - 170)  
(TRENDI = Test Requirements for Evaluating Network Ready Devices for IoT)
- Complete TRENDI Tests
- Determine How You Will Identify Your Device  
(Find the 3 Methods on [att.com/getcertified](http://att.com/getcertified))
- Get Industry Certified Through PTCRB.org  
(Learn more on [att.com/getcertified](http://att.com/getcertified), and visit [PTCRB.com](http://PTCRB.com) for Certification.)
  - Get Certification Request Number and Onboard your device at [att.com/getcertified](http://att.com/getcertified)
  - Pass PTCRB SIM electrical testing if applicable
  - Pass PTCRB RSE testing
  - Complete PTCRB OTA (TRP/TIS) Antenna Performance testing (if applicable)
    - Verify Antenna Performance results meet AT&T Criteria
- Verify PTCRB Fee is Paid and Your Device is "Approved"  
(PTCRB.com will post your device on their list once it is approved and paid)
